

B2C SPRINKLES

GIRRBACH

is one of the very first addresses in the production of shaped and printed chocolate decorations as well as sprinkled decorations made from sugar, chocolate, marzipan and fondant masses.

We are characterized by the fast and flexible development of customer-specific consumer, bulk consumer and industrial products as well as the customer-specific development of masses, shapes and colors for imaginative, new decors.

Our products are produced and filled in our own production location, the northern Black Forest, using high-quality ingredients.

We export our products to more than 40 countries worldwide. Our customers from industry and trade know us as a professional and reliable partner.

Individual product development in cooperation with our customers is particularly important at Girrbach: Individually developed and produced decors are our passion. Feel free to contact us!

On the following pages you will find suggestions and recommendations for sprinkled decor mixes for various themes and occasions. However, we also look forward to your individual briefing and will be happy to create suitable suggestions.
